Amount of Additional Impervious Surface (Square Feet): _____

Impervious surface is a surface that prevents the infiltration of water into the ground, including but not limited to; roofs, additional indoor living spaces, patios, garages, storage sheds and similar structures or sidewalks. Decks, parking areas, and driveway areas are counted as impervious areas if they directly prevent infiltration.

Please list all projects and amount of added impervious surface since December 6, 2018:

I declare that I am the property owner, or representative of the owner, and the provided information is accurate to the best of my knowledge. I understand that stormwater shall not adversely adjacent properties or be directed onto another property. I also understand false information may result in a stop-work order or revocation of any associated permits. Borough Representatives are also granted reasonable access to the property for review and/or inspection of this project as necessary.
